<p>French</p> 	<p>The children will be learning: To develop their speaking, reading, writing and listening skills by studying the topics 'About Town' and 'On holiday'.</p>
<p>ICT</p> 	<p>The children will be learning: E-Safety ~ How to stay safe when on-line. To design a webpage. To use excel to create spreadsheets</p>
<p>Homework</p>	<ul style="list-style-type: none"> • Reading comprehension homework is set on a Wednesday, (to be handed in the following Monday). • Encourage your child to read every day. It is important that they read to an adult as well as by themselves as time spent discussing the story and characters is just as important as the process of reading. (There are ideas on the reading booklets given out at parents' evenings.) • Spelling homework is given out on a weekly basis on Wednesday and they will be tested on Monday. • Maths homework is given out on a weekly basis on a Wednesday, (to be handed in the following Monday). If you would like advice on how best to support your child at home with their Maths learning. • Additional homework ~ During the term your child may be asked to carry out further research and bring information in to class. It will support what your child has been learning in lessons. Please ask your child's teacher.

	<i>We appreciate that you are keen to support your child, but please encourage them to do as much of their homework task as they can for themselves.</i>
--	--

Additional information about ways in which you can help your child at home:

- Encourage them to organise their own things ready for school and take care of their belongings. They need their Homework Diary, Reading Book and Reading Record every day.
- Encourage them to talk about what they have learnt in school that day.
- Teach them how to tell the time using an analogue and digital clock.
- Encourage them to bring in items of interest related to their work.
- Encourage your child to read on a daily basis. Little and often is the key and each day only needs 10 or 15 minutes.
- Encourage your child to organise themselves so that their homework tasks are handed in on time.
- Encourage mental maths at every opportunity, eg. Asking times tables questions on the way to school, working out change at the shop.
